## Profile of RIA Residents

The figures above are taken from the AISIP database. At the end of the above month there were 4,434 persons "live on system".

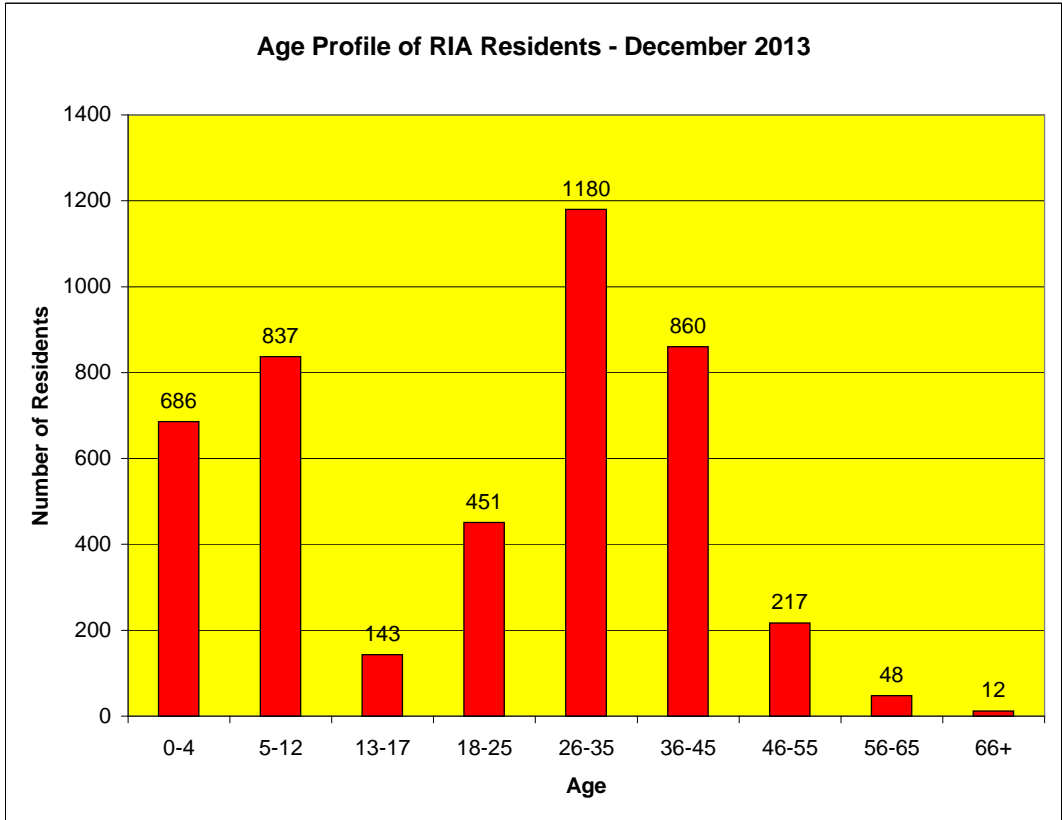

32 residents had not yet had their status recorded.

\*An 'Unregistered Child' refers to a child living in RIA Accommodation, in respect of whom his/her parents have yet to make an application for asylum for them.

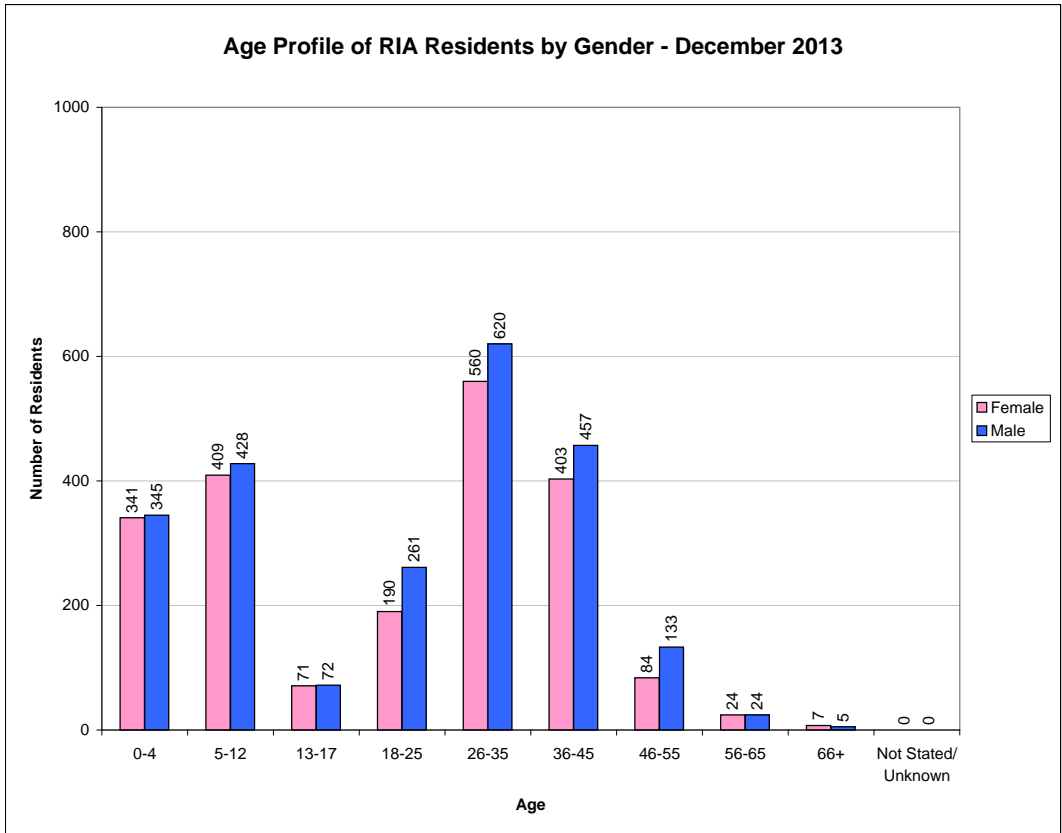

Notwithstanding the status declared by an applicant for asylum, the figures above reflect the effective accommodation status of a resident while in RIA Accommodation. For example, while a resident may be married to a person who remains in their country of origin, his/her status for purely accommodation reasons will be 'Single'.

## Age Profile of Residents in Direct Provision

The figures above are taken from the AISIP database. At the end of the above month there were 4,434 persons "live on system".

The figures above are taken from the AISIP database. At the end of the above month there were 4,434 persons "live on system".

### Note on Above Figures

1) From w/e 4/1/2009, all first time applicants to RIA for accommodation have been classified as 'New Applicants', regardless of the date of an application for asylum was made with the Office of the Refugee Applications Commissioner (ORAC). It was previously the practice to only classify as a 'New Applicant' those who sought accommodation on the same date that they made an application to ORAC

2) From w/e 4/1/9, a record has been kept of the number of ORAC applicants who did not apply for accommodation with RIA. The first figure is a bare figure of those who did not apply. The second is the aggregate figure, allowing for those who did not apply to RIA on the day of ORAC application, but who were subsequently accommodated in Direct Provision at Mount Street.

3) While the figures above may include those who made their application at a port or airport, from w/e 4/1/9 a separate record will be included, in the weekly and monthly 'Overview of Direct Provision', of total such applications made.

4) From w/e 4/1/9, this section has referred to those 'Considered' for Accommodation, rather than 'Entitled' to Accommodation. The previous description may have incorrectly indicated that all those B1 were not "entitled" to entry to Direct Provision.

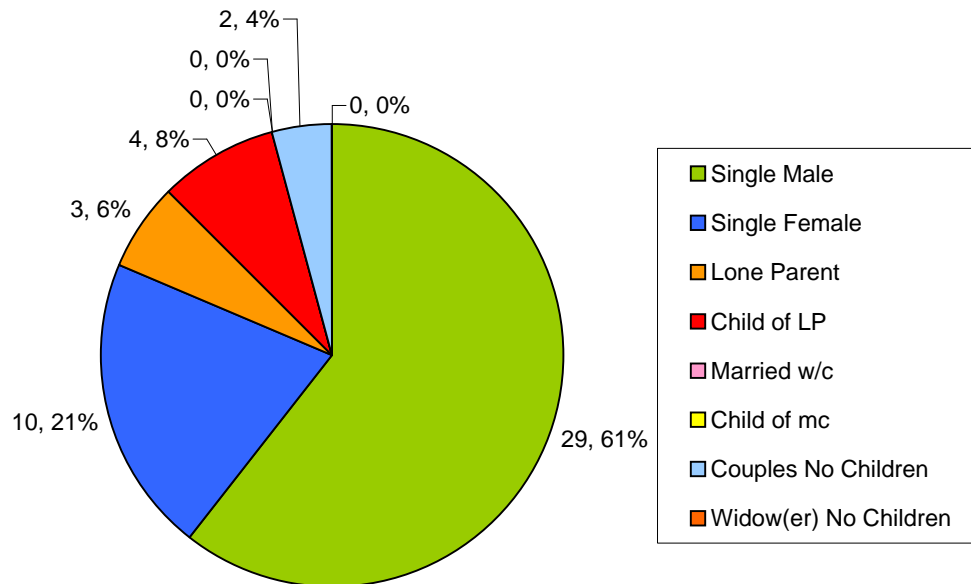

5) The RIA figures for re-applicants accommodated prior to w/e 4/1/2009 were deemed to be extremely unreliable. From that date on, a definitive and thorough record has been kept of these stats, and the figure prior to then includes all applications & re-applications. This applies to re-applicants refusing.

1) The above figures represent a 'snapshot' of data on the evening of last Sunday of each month. Occupancy figures can vary throughout the year because of the interaction of residents leaving (either through normal means or because of special schemes such as the Irish Born Child 2005 Scheme), residents arriving, temporary closures, medical restrictions on arrivals arising from outbreaks of chickenpox, etc.

2) It is desired that RIA maintain a 10% "cushion" between maximum capacity and actual occupancy, as a contingency to cope with unexpected spikes in numbers of asylum seekers coming in to the accommodation system, to allow for temporary or permanent closures of individual centres, and to help RIA to react to medical emergencies causing restrictions to some of our capacity.

## Centre Dispersal & Breakdown

**Breakdown of Reception and Accommodation Centres**

At the end of December 2013, the RIA accommodation portfolio was comprised of a total of 34 centres throughout 16 counties, with a contracted capacity of 5,047. These centres were:

1 Reception Centre, located in Dublin.      31 Accommodation Centres.

2 Self Catering Centres, located in Dublin and Co. Louth.

Of those centres in the RIA portfolio, only three were built ("system built") for the express purpose of accommodating asylum seekers. The majority of the portfolio comprises buildings which had a different initial purpose i.e. former hotels, guesthouses (B&B), hostels, former convents / nursing Homes, a holiday camp and a mobile home site.

The mobile home site is located in Athlone and the "system built" centres are:

-Knockalisheen, Co. Clare (State-owned); Kinsale Road, Cork City (State-owned); Baleskin, Co Dublin;

The seven state-owned centres are:

- Knockalisheen, Co. Clare;
- Kinsale Road, Cork City;
- Atlas House, Killarney;
- Atlas House, Tralee;
- Johnston Marina, Tralee;
- Park Lodge , Killarney;
- Athlone.

1) The above figures represent a 'snapshot' of each centre on the evening of the date indicated. While capacity figures remain constant, occupancy figures can vary throughout the year because of the interaction of residents leaving (either through normal means or because of special schemes such as the Irish Born Child 2005 Scheme), residents arriving, temporary closures, medical restrictions on arrivals arising from outbreaks of chickenpox, and so on.

2) For contingency reasons, RIA maintain a high reserve capacity in some Dublin centres, which act as 'overnight' centres cater for asylum seekers attending ORAC interviews, medical appointments etc., and otherwise give a capability to react to unforeseen circumstances and spikes in numbers of asylum seekers coming in to the accommodation system.
